Production Management

- Process Reengineering
- Quality Assurance
- Team Leadership

Results-driven and dedicated with wide- ranging experience planning and leading operations involving small-to medium-sized manufacturing environments. Track record devising, evaluating ,and implementing continuous process improvements to minimize waste and reduce costs while maximizing quality and yield. Establish effective quality control and safety programs, encouraging proactive participation across the manufacturing floor. Excellent communicator; success building cohesive teams focused on production goals, safety, and throughput.

Areas of expertise

- Lean Manufacturing
- Regulatory Compliance
- P&L Responsibility

- Just-in-Time (JIT) Production
- Total Quality Management (TQM)
- Policy / Procedure Development

- Team Building & Training
- Resource Allocation
- Cost Reduction / Avoidance

Professional Experience

J S Engg Works , Patiala, Punjab, 3/2014 – Present

Production Manager

Steer and direct sheet metal components and automobile precision tools manufacturing operations. Establish operational policies and implement process improvements to ensure superior quality and outstanding output of custom tools and dies and extruded parts. Directly manage supervisors and overseeing 50+ exempt and non-exempt employees.

Selected Contributions:

- Reduced staff while maintaining production levels through a redesign of operational processes and improved training and staff utilization.
- Played integral role in identifying and transitioning work to outsourced vendor, reducing total manufacturing costs by 10%.

Nexo Industries, Kohara, Punjab, 10/2012 – 2/2014

Supervisor, Manufacturing Operations

Oversaw floor operations and managed four direct reports and 70+ non-exempt employees for hex bolt, hex screw, coach bolt. Established production schedules, defined staffing requirements, and implemented optimized procedures.

Selected Contributions:

- Introduced manufacturing processes and promoted new technology to minimize customer costs and improve margins.
- Integrated new product line into existing operations while reducing required staff by 3%.

Education and Training

Bachelor of Information Technology (2012)

Punjab Technical University – Jalandhar, Punjab

Professional Development

Total Quality Management (TQM) & Just in Time (JIT)

Project Management Professional (PMP)
