

## COVER LETTER

This is writing to connection with you regarding job vacancy for the post of QC Welding/Coating Inspector. I have More than 8 years of experience in Oil and Gas field in piping Inspection, welding inspection, refinery maintenance/shutdown/turn around and construction projects, NDE inspection, interpretation of radiographs. Provided services to wide range of client from different Projects in the Middle East and holding **Saudi Aramco** Approval for Many Projects with Saudi Aramco Personnel no (**SAP-70015673**)

I would like to get your consider to evaluate my CV in attachements.As you can see from my CV I have completed following Degree and certifications,

- Diploma in Electrical and Electronics Engineering
- American Certified Welding Inspector **AWS-CWI. certificate No: 09045381**
- NACE- 2 Coating Inspector. **certificate No: 47363**
- ASNT Level 2 (RT,UT,PT,MT)

I have also demonstrated my skills and ability to interact well with others. I believe I would be a valuable addition to your team. I would appreciate of an interview at your convenience. Thank you for your co-operation and I hope to hear from you shortly

I will be available immediately and would like to join anytime if I selected.

Thank you in advance.

Thank and regards  
N. Srinivasan

### Professional Summary

Experienced QC Coating and Welding Inspector with certification from NACE, American Welding Society. Exhibits strong attention to detail in inspecting coating and welding qualities. Comes with a Diploma in Electrical and Electronics Engineering with 8 years of practical experience.

Be a Professional Inspector that capable to carrying out all inspector duties and maintain Quality Cultural, commitment, and professional will continues to develop itself to create a great vocation & prosperity for qualified resources. If you asking me about quality and I'll say it "QUALITY IS NOT COMPROMISE!" That is all about.

### Core Qualifications

- Strong computer and mathematics skills
- Proficient in interpretation of engineering documents and drawings
- Excellent written and oral communication skills
- Experienced at testing welds and coating at various stages to ensure they meet quality measures
- Utilizes testing methods for Coating to ensure Quality
- Organized and analytically minded

### Educational & Professional Qualification

Diploma in Electrical and Electronics Engineering, 2006  
NACE level-2 Certified on ,2013 **Certification ID:47363**(Valid Up to 2019)  
American Certified Welding Inspector certified on 2009, **Certification ID:09045381**(Valid Up to 2018)  
American Society for Non-Destructive testing, Certified on 2009 (Valid Up to 2018)

### Experience

#### QC Coating Inspector Petrofac Int Ltd

Sep, 2015-Present  
Saudi Arabia, KSA.  
Petrofac 

- Ensuring quality by monitoring incoming, in-process and final inspection of procedures, records & ISO documentations
- Monitoring work in progress for compliance with the latest approved revisions of drawings and specifications and verifying that finished work meets acceptance criteria
- Reviewing painting specifications, technical & safety data sheets, blasting and painting procedures
- Monitoring and verifying blasting and painting quality issues i.e. measuring weather conditions, surface profile, paint thickness, holiday detection test to ensure compliance with relevant project specification
- Ensuring the right time interval between blast cleaning and coating application as per the environmental conditions.
- After completed joint application visual check for continuous and uniform film, free of blisters, sags, runs or color striations.

#### QC Coating Inspector Saipem, Snamprogetti

Feb, 2014-Aug, 2015  
Saudi Arabia, KSA.

- Quality control of surface preparation and coating together with Painting representative and Owner representatives.
- Responsible for all painting inspection. Check at all stages the proper application of contract specification and the reapproved procedures related to the applied coating system.
- Witness Holiday Detection test for internal coated piping/tanks, pipelines external and underground piping.
- Monitoring and Inspection surface preparation Blasting and Painting to ensure and check abrasive, surface profile, coating, environmental and Perform tests.
- Review & Compile All Field Blasting and Painting Record for Manufacturing Data Report (MDR) or Project Documentation for turn over document to Client.

**QC Coating / Welding Inspector**  
**Daelim Construction Services Company**

**Dec,2012-Jan,2014**  
**Saudi Arabia, KSA.**  
**DAELIM**
